

Extension of the implementation of the Project "Strength is in us"

The Municipal Social Welfare Center in Pulawy is continuing the implementation of the Project "Strength is in us", dedicated to the problem of violence against the elderly and people with disabilities, co-financed from Norwegian Funds and national funds. The Project initially planned for 2023, with a grant amount of PLN 330 thousand, was extended by the decision of the Justice Program Operator, i.e. the Ministry of Justice, until the end of March 2024, receiving additional funding, bringing the total grant amount to PLN 460 thousand.

The Project's activities are aimed at increasing the effectiveness of assistance and support for elderly and disabled people who experience or are at risk of violence and their caregivers. The Project also includes preventive activities and raising the competence of representatives of institutions and entities carrying out tasks related to counteracting domestic violence in Pulawy and acting on behalf of these groups of people.

In the months of January and February 2024 there will be continued individual psychological, legal and psychiatric support for Project participants, as well as support within the framework of support groups for caregivers of dependent persons.

We invite all interested parties to participate.
